New Hemp-Based Cigarette Rolling Papers Available from Chills

Chills Tobacco Americana has introduced two new "tree-free" cigarette rolling papers, Alien and Tribal.

Both papers are single width and are made entirely from hemp, the first of their kind to be approved for sale by U.S. customs. Both are lightweight in the French tradition. Each booklet contains 48 papers (50% more than leading competitors),

and each box contains 25 booklets (one more per box than the leading competitors). Cut corners allow easy rolling.

Boxes include table top and gravity feed display options. *Chills*, 1324 Central Ave., Sarasota, Florida 34236, Tel: (800) 454-4551.

Slow-burning and tree-free, Chills papers are available in Alien and Tribal versions.
